

The 20th Nordic GIS Conference 2008

Radisson SAS Hotel Fredrikstad, 15th–17th October 2008

GI Norden is a Nordic, non-profit organisation within the field of geomatics, established in 1989. The objectives of GI Norden are to develop the general and professional knowledge of geographic information, and promote geographic information as a part of the infrastructure of the Nordic societies. Every year a GIS conference is organised among the Nordic countries.

The main target group of the conference is private and public producers and users of geographic information. The conference will include both plenary and parallel sessions. There will also be an exhibition with demonstrations, and formal and informal social activities.
