

INSPIRE DT DSS - status

- Frustration with lack of information – directive text and user requirements
- Commission understood and initiated changes in Work Programme
- Meeting Innsbruck and two teleconferences in August
- Chairman will be changed
- Meeting in Luxembourg 15-16 November
 - Hope for clarification of directive
 - User requirements from JRC in October

On-going work

- **Commenting on work by DT Metadata**
- **Going through registered reference documents**
 - **Would like more cases/documentation**
- **Strawman IR**
 - **“... to draft now something that while not correct would allow us to make some concrete and straight line progress towards our goal... look for other IRs in different areas..., and for other existing agreements on data sharing, and use these as a basis to create the strawman IRs.”**
 - **Suggestion is coming for DT to consider**
